

FIRE HYDRANT FLOW TEST REQUEST

As of September 9, 2026, the fee is \$300.00.

Fee for Fire Hydrant Flow Test may be paid by check, cash, or credit card.

Flow tests on a fire hydrant may be performed on a customer's behalf by an approved outside service hired by the property owner. Per Casitas' Rates and Regulations for Water Service, no one except an employee or authorized representative of the District shall at any time or in any manner operate any facilities of the District's system. Any person who does so, in addition to remedies set forth herein, shall be subject to penalties for damage to Casitas' facilities. No fire flow test shall be performed without a District representative present. The testing company must provide dechlorination and use Best Management Practices to minimize erosion from the discharge. Additional requirements may be imposed depending on the location and the potential impacts of discharge. Testing company shall provide certificate of insurance in accordance with the attached sample. Submit application to Julia Aranda, PE, Engineering Manager: jaranda@casitaswater.com.
